“We were worried about the move to supported living, but we have seen how Two Rivers do it, and we’re happy with the outcome”

We don’t think women should need permanent high levels of care in supported living. The aim of all of our services is to get women healthy, confident, happy and active to reduce reliance on carers.

“With the treadmill, cooking Indian food and preparing our cultural activities, I have a lot to do ”

We currently have supported living vacancies. If you want to find out more about our service, please contact the manager, Mrs Gyan Dass on:
